Software Engineer with 8 years of professional experience creating streamlined and intuitive applications through software development and design. Front-end focused in utilizing a variety of technologies and frameworks, especially React and Node.JS, to develop visually appealing and functional websites, with a keen eye for detail and a passion for creating seamless digital experiences.

Professional Experience

2023-08 - 2024-02

Front End Software Engineer

Bank Of America, Charlotte, NC

- Spearheaded the development of a new client-facing application, enhancing the bank's digital services and improving customer satisfaction.
- Collaborated with cross-functional teams in an agile software development methodology, including designers, back-end developers, and product managers, to define project requirements and ensure seamless integration of UI components.
- Utilized React, JavaScript, HTML, CSS, and other web development technologies to create responsive, visually appealing, and highly performant user interfaces for the front end.
- Worked with back-end engineers on Node APIs for the server side, facilitating data retrieval and processing, user authentication, and seamless communication between the front end and the server.

2019-10 - 2023-06

UI Developer (Full Stack)

Credit Suisse Bank, Durham, NC

- Communicated with product owners, business analysts and UX designers to translate project requirements and business objectives into polished user interfaces.
- Improved and expanded project platforms using JavaScript (ReactJS) to develop rich User Interfaces.
- Developed back-end API components to connect applications with web services using Java Spring Framework.
- Worked to implement and maintain Continuous Integration (CI) and Continuous Delivery (CD) practices.
- Used Agile Scrum model to deliver solutions with high level of flexibility and adaptability.

| 2017-09 - 2019-09 | **Front End Developer** |
| | TIAA Bank, Jacksonville, FL |

- Collaborated with product managers and UX designers to develop state-of-the-art web applications for all enterprise's clients.
- Worked in Agile environment to maintain project timelines and utilize available resources.
- Designed and updated layouts to meet usability and performance requirements.

| 2016-05 - 2017-08 | **Web Applications Programmer** |
| | APPX Software Inc, Jacksonville, FL |

- Engaged with clients to plan and optimize site issues and queries.
- Collaborated with business managers to define requirements and test updates.
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX and JSON coding.

Education

| 2011-09 - 2016-04 | **Bachelor of Science: Computer And Information Sciences** |
| | University of North Florida - Jacksonville, FL |

- Major in Computer Science
